MEN'S HATS SACRIFICED

Among the greatest sacrifices will be hats. Hats of all kinds are reduced. We don't mean to say that every hat in our stock is reduced, because there are some that have come in within the past two or three weeks that are already marked so closely that no reduction can be made on them. But most of our stock has been cut to the limit.

We have divided our hats into four large divisions and they are marked as follows:

NEWS OF PENDLETON

Two More Grants Sold. W. F. Ellsworth left yesterday for Lexington with a new Grant roadster from the carload received by Robbins & West last week. The Junior member of the firm, Mr. West, returned yesterday from Heppner in company with the firm's demonstrator, Lloyd Hale, where they had gone to deliver a Grant touring car to Gilliam & Babee, the largest hardware firm in Morrow county.

Peterson Will Win Out. W. M. Peterson has received enough information from the various counties of this district to insure his election as a delegate to the national democratic convention. He will probably lead the field. He received a big vote in Umatilla county, is running ahead in Morrow and is second in most of the other counties.

Weather to Improve Little. The weather man promises a slightly better brand during the next few days. His forecast this morning to the forestry department is as follows: "Tonight and Friday partly cloudy; unsettled; partly cloudy weather today and Friday probably fair; following two or three days with slowly rising temperatures."

More Publicity for Pendleton. Le Roy W. Allison of Newark, N. J., who recently had an article on the Pendleton natatorium in "Concrete," a publication, has written the Commercial association that he will soon have another article dealing with the municipal phase of the natatorium and Round-Up Park in "The American City" magazine. He has also asked Secretary Cranston for information relative to the new library building here.

HOSTETTER'S Stomach Bitters

A Fine Aid For Mother-to-be

We are all greatly indebted to those who tell their experiences. And among the many things which we read about and are of immediate importance to the expectant mother, is a splendid external remedy called "Mother's Friend." This is applied over the muscles of the stomach. It is deeply penetrating in its influence. Mothers everywhere tell of its soothing effect, how it allays pains incident to stretching of cords, hemorrhoids and muscles. They tell of restful comfort, of calm, peaceful nights, an absence of those distressing peculiarities to the period of expectancy, relief from morning sickness, so more of that apprehension with which so many young women's minds become burdened. It is a splendid help. Get a bottle of "Mother's Friend" from your nearest druggist. Ask your husband to get it for you. Then write to Bradfield Regulator Co., 414 Lamar Bldg., Atlanta, Ga., for a very handsome and instructive book. It is filled with suggestive ideas of great help to all women interested in the subject of maternity. And best of all are some letters from mothers that are real inspirations. Write today.

Preparation for Trade War. LONDON, May 25.—The Daily Mail says that Dr. Helfferich's transfer is a step in the German preparations for commercial war to follow peace in an attempt to regain the export trade Germany enjoyed before the war. "For the first time in the history of the German civil service," the Mail says, "a practical business man, instead of a bureaucratic politician is its chief."

WOOLEN MILLS PLAN TO INCREASE OUTPUT

PORTLAND, Ore., May 24.—Improvements and additions now being made at the plant of the Portland Woollen Mills will increase the capacity of the institution fully 35 per cent and will make possible a net annual production aggregating \$1,000,000. The Portland Woollen Mills, in conjunction with the Pendleton Woollen Mills, recently purchased the entire plant equipment of the Marysville Woollen Mills at Marysville, Cal. The machinery and all other materials that can be used in the Oregon plants will be moved here immediately. The Marysville mill had 32 looms. The Portland mill will absorb 26 of them and the remaining six will go to the Pendleton plant. Extensive improvements to accommodate the additional machinery for the Portland mill have been started and will be completed within the next few months.

Two Buildings Added. Principal among these improvements, said E. L. Thompson, the man-

ager, yesterday, will be construction of two new buildings. One of these buildings is to be 120 by 80 feet and will house the new machinery. It will be two stories high, of brick and concrete.

The other building—a warehouse—will be 30 by 100. It will be one story of brick and steel reinforcement. In addition to the machinery acquired in the California plant, the Portland mills also have ordered a lot of new machinery from eastern manufacturers.

A crew of men was sent from Portland to Marysville yesterday to dismantle the old plant there, assemble the machinery on board the cars and start with it for Portland. It is estimated that 15 cars will be required to haul it.

There are nearly 2000 stitches in a pair of hand-sewn shoes.

FAMILY DESERTERS ARE MADE TO WORK IN BUILDING ROADS

CALIFORNIA HAS STATUTE PROVIDING THAT MONEY GO TO DEFENDANTS.

WASHINGTON, May 24.—Road work affords a means of making the family deserted support his wife and children. California by statute provides that deserters and other delinquents shall be worked by the counties upon the roads and a sum not exceeding \$1.50 per day be paid to their dependants for the work. Miss Beatrice McCall of the Woman's Protective Bureau of Oakland has reported to the National Committee on Prisons that Los Angeles and Sacramento counties are enforcing this provision and employing their prisoners in road work. The bureau is endeavoring to have the statute enforced in Oakland county. The movement to work county prisoners on public roads is also gaining ground in Louisiana. New Orleans passed an ordinance in 1907 providing for such work. Other

counties have leased their prisoners under the lease system abolished as far as state prisoners are concerned by the constitution of the state. W. O. Hart, president of the Louisiana Prison Reform Association, has informed the National Committee on Prisons that the association is introducing a bill into the next session of the legislature to abolish the lease system even for county prisoners and extend the New Orleans system to other counties.

Kalamazoo county, Michigan, ridged the county of tramps by establishing road camps for county prisoners. Salem county, New Jersey, found the road camp a means of overcoming crowded conditions in the jail. Georgia finds road work a successful means of employing practically all her county prisoners. The movement for road work for short-term prisoners given impetus by the National Committee on Prisons, is extending from county to county. Soon the old idleness and degradation of the county jail will have given place to health work on the roads, with wage which will keep many a family off the charity list.

WHERE EXPORTS ARE GOING

Starting Figures Showing Marvelous Gains All Over World, With England, France, Italy and Russia Leading. WASHINGTON, May 25.—Where

the huge exports of the United States are going is shown in a statement just issued by the Bureau of Foreign and Domestic Commerce, Department of Commerce. It deals with the month of March and the nine months of the current fiscal year ending in March and gives the corresponding figures for March, 1915, and for the same nine month period of 1915.

It appears that about \$148,000,000 worth of goods went to Great Britain last month as compared with \$93,000,000 worth in March, 1915; and that during the nine months over a billion dollars worth has been sold to the United Kingdom as compared with \$630,000,000 worth for the same period a year ago. Exports to France come next. During March, \$75,000,000 worth went to France, nearly twice as much as was exported to France in March, 1915. For the nine months, France took \$423,000,000 of American goods, \$260,000,000 more than in the same nine months of 1915. Canada is the third best customer, Italy the fourth, and Russia in Europe the fifth.

GERMANS SAILING BALTIC.

COPENHAGEN, via London, May 25.—German traffic in the Baltic has been restored, according to a Malmo dispatch to the Politiken. Five German merchantmen, says the dispatch, arrived in Swedish harbors today, escorted by a large squadron of German warships.
